6	Contract Item #2: High-Pressure Jetting Services	12.00000	EA	2250.000000	27000.00

Comm Code	Manufacturer	Specification	Model #
40141747			

**Commodity Line Comments:** Bid is with condition that subcontractor is accepted. This is the only way AAA can bid on the whole contract. Contractor is a well known company that has all credentials needed to work for the state of West Virginia as they are already being subcontracted through us to do high pressure jetting for another jail. They will be using a 3000psi 12gpm jetter that should be plenty enough to get the scope of work done properly. If there are further questions contact Dustin Parks at 304-425-5329.

**Extended Description:**

See attached specifications for further details.
