Handgun, Rifle, and Shotgun Ammunition
Vendor Questions and Agency Responses:

1. Regarding the shot shell line items 3.1.1.1, 3.1.1.2, and 3.1.1.3 – Should these items be standard recoil or low recoil shot shells?

A. Standard recoil.

2. Also, I do not see a supplemental discount off of MSRP prices for items that are not specifically requested in this bid. Would the State consider adding a line that would require the bidder to submit an MSRP price list and bid a discount percentage off of the MSRP prices for items that are not specifically requested? This would encompass any other types of ammunition that the bidder sells so that the State has a broader range of ammunition on contract in addition to the specified rounds.

A. No, the ammunition listed is the only ammunition that is required and approved by the Agency for usage.

3. For Item #3.1.1.1 – Is the State requesting a 9 pellet or 8 pellet buckshot?

A. 9 pellet
